

Daily EQ Trend

2nd July 2026

Technical Outlook

Nifty (24,005.85): Trend line breakout on cards.

Nifty 50 regained momentum, rising 140 points to close back above the 24,000 marks. Sectorally, Realty, FMCG, and Non-Cyclical Consumer stocks led the gains, reflecting broad-based buying interest.

Technically, the daily candlestick pattern indicates strength, with the index witnessing buying from its key demand zone. On the hourly chart, the index is poised for a short-term breakout, which could pave the way for a move towards 24,200. The alignment of the short-term moving averages along with a positive RSI crossover further supports the bullish outlook.

We continue to maintain a positive bias, and any decline should be viewed as an opportunity to accumulate long positions.

Bank Nifty (58,033.05): Bullish bias continues.

Bank Nifty recovered its lost ground and closed above the 58,000 marks. The advance-decline ratio stood at 11:3, with Kotak Mahindra Bank, State Bank of India, and Union Bank of India leading the gains.

Technically, the index found support near its 10-EMA and formed a strong bullish candlestick, indicating renewed buying interest. A sustained move higher could take the index towards 59,000, followed by 59,500. The alignment of the moving averages and momentum oscillators remains positive, reinforcing the bullish outlook.

We continue to maintain a positive bias, and any decline should be viewed as an opportunity to accumulate long positions.
