

Daily EQ Trend

11 Aug 2026

Technical Outlook

Nifty (24,583.80): Index forms “Doji” formation.

Nifty 50 continued to consolidate in a range and formed a Doji candlestick, closing marginally higher by 13.15 points at 24,583.80. Realty, Midcap 50, and Midcap Select witnessed buying interest.

Technically, the index is holding above 24,500, indicating underlying strength. The 200-day SMA at 24,774 remains the key intermediate resistance.

A decisive breakout above this level could trigger fresh momentum towards 25,000+ levels.

We maintain a positive bias, as short-term moving averages are curving higher and supporting the bullish structure.

Bank Nifty (57,686.95): Consolidation in process.

Bank Nifty continued to trade in a tight range and closed marginally lower by 59.50 points, while holding above its 200-day SMA at 57,480. Market breadth remained positive at 8:5, led by ICICI Bank, Axis Bank, and Kotak Bank.

Technically, the index is consolidating with moving averages and momentum indicators positively aligned, indicating a bullish setup.

A decisive breakout above 58,700 could trigger a fresh leg of buying towards 59,500–60,000 levels.

We maintain a positive bias if the index sustains above its key support zone.
