

Daily EQ Trend

11 Sept 2026

Technical Outlook

Nifty (23,477.80): Oversold conditions may trigger bounce.

Nifty 50 found support near its 78.6% retracement level and closed marginally higher by 0.20% at 23,477.80 following the cash market close.

On the daily chart, the index has formed a hammer near the 23,500 marks. RSI at 29 indicates that the index remains in the oversold zone. Technically, a relief rally towards 23,800 cannot be ruled out.

However, such a bounce should be used to exit/reduce stock-specific longs.

Strategy: Maintain a cautious stance and use any bounce towards 23,800 to reduce longs.

Bank Nifty (56,471.95): Oversold conditions may trigger a bounce.

Bank Nifty traded on a subdued note and closed marginally higher by 0.31% at 56,471.95.

On the daily chart, the index remains negatively placed and is approaching its demand zone. Given the oversold conditions, a short-term bounce cannot be ruled out; however, the overall structure remains weak.

Stock-specific longs should be reviewed and positions reduced on rallies.

Strategy: Maintain a cautious stance ahead of the long weekend and avoid aggressive fresh longs.
