

Daily EQ Trend

12 Aug 2026

Technical Outlook

Nifty (24,471.70): Index corrects in a row.

Nifty 50 declined for the sixth consecutive session, closing below the 24,500 marks at 24,471.70. Pharma, IT, and Healthcare stocks witnessed buying interest.

Technically, the index tested its 10-day EMA and closed lower. However, the rising 50-day SMA continues to support the broader structure and indicates buying interest at lower levels.

We maintain a positive bias, with 24,400 acting as the key demand zone. A decisive breakout above 24,800 could trigger fresh momentum towards 25,000+ levels. We opt for buy on declines strategy.

Bank Nifty (57,446.25): Bounces from 50 SMA.

Bank Nifty witnessed wild swings, hitting a low of 57,158 before recovering to close near 57,446. Market breadth remained weak at 4:9, with Canara Bank and Union Bank leading the selling.

Technically, the moving averages and momentum indicators remain positively aligned, supporting the broader bullish structure. A decisive breakout above 58,000 could trigger a fresh rally towards 59,000.

However, a closing break below 57,000 would invalidate the bullish view and warrant a reassessment of the trend.
