

Daily EQ Trend

13 Oct 2026

Technical Outlook

Nifty (22,363.35): Sideways Consolidation.

Nifty 50 surrendered its previous session's gains and closed in the red. On the sector front, Media, Small cap and Defence witnessed buying interest.

On the daily chart, the index faced resistance near 22,600, triggering selling pressure. Momentum remains weak, with RSI at 31.88, indicating oversold conditions. However, as long as 22,150 holds, a pullback rally towards 23,000 cannot be ruled out.

The overall bias remains cautious, with any recovery likely to face resistance at higher levels.

Strategy: Consider selective, stock-specific long positions strictly from a trading perspective, while maintaining disciplined risk management.

Bank Nifty (54,919.00): Sideways Consolidation.

Bank Nifty witnessed selling pressure near its resistance zone and closed lower. Market breadth remained weak, with Kotak Bank being the only to close in the green.

On the daily chart, the index continues to form lower lows, indicating persistent weakness. The 56,200 level remains decisive, and a sustained move above it could signal a potential trend reversal. At current levels, the outlook remains mixed, with no clear directional trend emerging in the short term.

However, the broader structure remains negative, and a correction towards 54,000 cannot be ruled out.
