

Daily EQ Trend

14 Aug 2026

Technical Outlook

Nifty (24,395.85): Support at 20 SMA; Forms a hammer

Nifty 50 traded with a negative bias and corrected by 40 points to close at 24,395.85. On the sectoral front, Defence, Chemicals, and Realty stocks remained in the green.

On the daily chart, the index has been correcting for the three consecutive trading session and is now hovering near its crucial demand zone. For the coming trading session, we expect the index to remain range bound. A decisive close above 24,800 could activate the next leg of the uptrend towards 26,000. On the downside, the 50-SMA at 24,065 remains the major make-or-break level.

Overall, we maintain a bullish bias and recommend accumulating stock-specific long positions near key demand zones.

Bank Nifty (57,635.25): Bounce from 50 SMA.

Bank Nifty declined 250.60 points to close at 57,635.25. The advance-decline ratio stood at 5:8, with IDFC First Bank and IndusInd Bank among the notable gainers.

On the daily chart, the index has formed an inside-body formation, indicating a period of consolidation. Price action is also showing early signs of an Inverse Head & Shoulders pattern, with the neckline placed near 58,400.

The major moving averages remain positively placed, while RSI continues to hold above 50, supporting the underlying strength. We maintain a positive bias and expect a sustained breakout above 58,400 to trigger an upside move towards the 59,500-60,000 zone.
