

Daily EQ Trend

14 Oct 2026

Technical Outlook

Nifty (22,721.95): Bullish outlook.

Nifty 50 witnessed a strong recovery from the previous session's low, forming a bullish candle and gaining 1.60% to close at 22,721.95. The recovery was supported by buying in Small cap IT, Realty and Defence stocks.

On the daily chart, the index is poised for a move towards 23,000 and potentially higher. The positive RSI divergence is supporting the recovery and indicates improving momentum. The 50-SMA near 23,653 remains a potential upside extension target.

The bias for the week remains bullish for a trading bounce, with 22,400 acting as the key support.

Strategy: Consider selective trading longs while maintaining 22,400 as the key support level.

Bank Nifty (55,481.05): Momentum Positive.

Bank Nifty staged a strong recovery, gaining 1.03% to close at 55,481.05. On the stock front, IndusInd Bank, Yes Bank, Canara Bank and SBI witnessed buying interest.

On the daily chart, the index appears poised for further short-term recovery, with 56,000 emerging as the next key resistance zone. However, the broader trend remains bearish, as the index continues to trade below its 50-SMA.

Strategy: Maintain a cautious approach and consider selective trading longs, while tracking 56,000 for signs of resistance or a potential breakout.
