

Daily EQ Trend

17 Sept 2026

Technical Outlook

Nifty (23,217): Index witness a breather.

Nifty 50 witnessed a breather and closed on a flat note, gaining 99 points to settle near the 23,200 mark. During the session, FMCG and PSU Banks displayed pockets of strength.

On the daily chart, the index has formed a Doji pattern, indicating indecision. However, the overall trend and momentum remain bearish, while 23,800 continues to act as a key resistance zone. The broader structure remains weak, keeping the near-term outlook cautious.

Strategy: Maintain a cautious stance and use any bounce towards 23,800 to reduce long positions.

Bank Nifty (56,292.45): Index consolidates in range.

Bank Nifty witnessed a bounce-back from the demand zone and closed in the green.

On the daily chart, 55,500 remains the immediate support zone, while RSI is placed around 40 levels. The overall structure continues to look weak, with 57,000 acting as the major resistance zone. Any bounce towards this level is likely to face selling pressure.

Strategy: Maintain a cautious stance and avoid aggressive fresh longs until the index shows signs of sustained recovery.
