

Daily EQ Trend

18th June 2026

Technical Outlook

Nifty (24,085.70): Nifty Reclaims 24,000; Bullish Momentum Continues

NIFTY 50 traded with a positive bias and gained 135.25 points to close at 23,989.15 levels.

The trend and momentum continue to remain bullish, and a decisive close above the 24,000 marks could trigger a fresh leg of upside towards 24,250 and subsequently 24,900 levels.

Technically, the short- and medium-term moving averages are positively aligned, indicating a strengthening upward trend. Additionally, the RSI oscillator continues to move higher, reflecting improving momentum and underlying strength.

View: The bias remains bullish, and any minor correction towards the 50-day SMA near 23,800 should be viewed as an opportunity to re-enter fresh long positions.

Bank Nifty (57,585.05): Bank Nifty Extends Gains; Momentum Remains Strong

NIFTY BANK continued to trade in the green and gained 287.90 points to close at 57,585.05 levels. The advance-decline ratio remained positive at 11:3, with Yes Bank Limited, Bank of Baroda, and Union Bank of India leading the gains, while Axis Bank Limited and Kotak Mahindra Bank Limited ended in the red.

On the daily chart, the price action continues to reflect strength, suggesting continuation of the ongoing uptrend. Technically, the index appears poised to head towards 58,000 and subsequently 59,000 levels. On the downside, the 56,500 zone is expected to act as an important demand and support area. For the coming trading session, a decisive move above 57,800 could trigger fresh short covering and lead to further upside momentum.

View: The overall bias remains bullish, and any minor decline should be viewed as an opportunity to add long positions.
