

### MCX Gold April

- In the bullions complex, Gold prices continued the momentum on the higher side on Monday where prices recorded the high of 60455 and settled with the gains of nearly half a percent.
- On the technical front, Gold prices have been holding above the 20-day moving average since last two trading sessions. It will act as key support in the medium term which is placed near 56000 levels.
- The RSI (14) on daily chart has climbed near 74 mark which signals that counter has gained momentum on the higher side. The next leg of rally is likely to push Gold prices towards 62000 levels.
- We remain bullish on Gold and expect prices to trade higher throughout the day. As a result, we advocate traders to buy on dips in the counter for the targets of 61000 to 61500 levels.
