

Daily EQ Trend

25 Sept 2026

Technical Outlook

Nifty (23,063.10): Bearish downtrend.

Nifty 50 continued to witness selling pressure and closed sharply lower, declining 1.64% to 23,063.10. On the sectoral front, IT and Pharma remained relatively resilient and witnessed comparatively lower corrections.

On the daily chart, the index witnessed a gap-down opening and sustained selling, confirming weakness. Technically, the index could move towards 23,000 or even 22,800 if the pressure persists. On the upside, 23,500-23,600 has now emerged as the strong resistance zone, and any bounce towards these levels is likely to attract selling pressure.

Strategy: Maintain a negative bias and use any bounce towards 23,500-23,600 to reduce long exposure.

Bank Nifty (55,438.50): Bearish downtrend.

Bank Nifty broke below the major demand zone of 56,000 and closed lower. On the stock front, Canara Bank, Union Bank and ICICI Bank displayed pockets of strength.

On the daily chart, the index is forming lower lows, indicating continued weakness. The key moving averages and oscillators are also reflecting downside momentum, keeping the structure under pressure. The index could move towards 54,000 or lower if the weakness persists.

56,000 is now likely to act as the key resistance zone on any pullback.

Strategy: Maintain a cautious outlook and avoid aggressive fresh longs until the index stabilizes.
