Nifty Spot Chart

Technical Outlook

For the fifth session, Nifty index continued to trade on negative note. In the first half of the session Nifty tumbled till the low of 11536 and in the final hour it reclaimed slightly and finally ended at 11618 mark losing 0.39%. On technical ground, Index witnessed supports around 11530 of 50% retracement level for the swing range of 10637 -12430 and ended forming a hammer candlestick pattern. Due to continuous decline the momentum indicators RSI (14) and stochastic has headed towards the oversold territory. Thus for the day 11530 will act as immediate support and if it manages to sustain above that, then recovery can be experienced till 11750 levels. While, breakdown below 11530 will extend the fall towards next level of 61.8% retracement placed at 11320 mark.

Bank Nifty Spot Chart

Technical Outlook

On Thursday, Nifty Bank index also extended the fall till the low of 29921 in the mid session and at end it rebounded from the lows and finally settled at 30165 with 0.40% losses. Nifty Bank index which has been managing to hold the trend line supports for last few sessions has finally penetrated that during intraday, but once again ended just above it forming Hammer candle stick pattern. The momentum indicators RSI (14) and stochastic continued slip lower. So ahead, if the index convincingly trades below the trend line of 30130 then further dip is likely to be seen till previous low of 29620 levels.
