

Daily Commodity Trend

29 Sept 2026

MCX Gold (1,46,804): Range breakdown.

MCX Gold closed negative in yesterday's session, breaking below the consolidation range with a bearish candlestick formation. The commodity is currently trading near the 200 DEMA support line, while daily momentum remains negative. Sustained weakness can drag the price towards the major support zone, indicating continued selling pressure.

For the day, the outlook remains negative, with intra-day support placed at 144800-142550 and resistance at 148500-150100. Sustained weakness can extend the downside towards the support zone, while a recovery above resistance may indicate improving price strength. The outlook will require a review on sustained strength above 150100.

MCX Silver (2,27,442): Closed slightly below range support.

MCX Silver closed negative in yesterday's session and is trading slightly below the support of the prevailing consolidation range. The commodity formed a bearish candlestick and is currently trading near the 200 DEMA support, where some demand can emerge. Sustained weakness from current levels can drag the price towards the previous major support zone, while bounces are likely to face selling pressure.

For the day, the outlook remains negative, with intra-day support placed at 223250-218150 and resistance at 232300. **Bounces towards the higher levels can be utilized to sell for targets of 223250-218150, with a stop-loss at 233250.** The outlook will require a review on sustained strength above 232300.

MCX Crude Oil (8,911): Highly volatile

MCX Crude Oil witnessed selling pressure at higher levels in yesterday's session and is finding it difficult to sustain above the short-term daily EMAs. The daily trend continues to weaken, while sustained weakness can drag the price towards the trendline support highlighted on the charts. **Traders can consider selling near 9060 for a target of 8600-8400, with a stop-loss at 9150;** volatility is likely to persist, warranting a proper risk-management framework.

For the day, the outlook remains negative, with intra-day support placed at 8500-8400 and resistance at 9100-9300. Sustained weakness can extend the downside towards the support zone. The outlook will require a review on sustained strength above 9300.
