

Weekly Equity Trend 30 June 2025

NIFTY (25,637)

BANKNIFTY (57,443)

Weekly Technical View

The benchmark Nifty had a very strong week. It started the week with a negative opening of 173 points and closed with a gain of 525 points. Jio Financial Services Ltd, Adani Enterprises Ltd, and Hindalco Industries Ltd were the top gainers, while ONGC, Dr. Reddy's Laboratories Ltd, and Tech Mahindra Ltd were the top losers. Nifty Metal, Nifty Capital Market, and Nifty Media were the top-performing indices, while Nifty Realty, Nifty Defence, and Nifty IT were the laggards. On the technical front, Nifty has successfully broken out of a six-week consolidation range, thereby resuming its upward momentum. It continues to trade above both the short-term and long-term exponential moving averages, forming new higher highs—indicating strong momentum. Last week's candlestick is a bullish Marubozu, suggesting a likely continuation of the bullish momentum going forward. Currently, support is placed at 25,250, and resistance is expected around 26,100. Traders can consider buying above 25,250 for targets of 25,650–26,000. Any close below 24,650 will warrant a review of the current outlook.

Weekly Technical View

Bank Nifty was positive last week. It started the week with a negative opening of 420 points and closed with a gain of 1,191 points. Canara Bank, Punjab National Bank, and IDFC First Bank were the top gainers in the index. On the technical front, Bank Nifty continued its upward momentum, making a new higher high on both the weekly and daily charts. It has formed a bullish higher high and higher low pattern on the weekly chart and continues to trade above both the short-term and long-term moving averages. All these factors indicate a sustained uptrend and strong underlying momentum. Last week, Bank Nifty formed a bullish Marubozu candlestick pattern, signaling a likely continuation of the bullish momentum going forward. Immediate weekly support is placed at 56,600, while strong support is seen at 55,700. Resistance is expected around 58,700. Since the overall trend is bullish, traders can consider buying Bank Nifty near the immediate support level of 56,600 for targets of 57,450–57,800–58,000. Any weekly close below 55,250 will warrant a review of the current outlook.
