Resistance	43400 / 43600

Nifty Spot Chart

Technical Outlook

NIFTY has been making new all time high over the past two sessions and closed at fresh all time high of 18618 with formation of bullish candlestick pattern suggesting uptrend will continue and it can move towards 18680/18750 -18800 levels in near term. Momentum indicators like RSI is in overbought zone signaling if any profit booking at higher levels, buying pressure can be expected at every dips. Going ahead as long as if NIFTY holds above 18330/18240 the uptrend may continue. On the downside NIFTY has support 18430/18370 levels. Breakdown of 18330 levels would invite further selling pressure and then 18240/ 18130/18050 levels are possible. However, the resistance for the NIFTY will be seen at 18680/18750-18800 levels.

Bank Nifty Spot Chart

Technical Outlook

BANKNIFTY witnessed profit booking in the later part of the day and closed above its key psychological level of 43000 with formation of positive candlestick pattern on daily chart suggesting uptrend may remain intact and breakout of 43280/43340 levels would take the Index at 43400/43600 levels. Sustaining above 43600 levels can move towards 44000 levels. On the downside, 42740/42620 levels will act as key support for the day. The overall trend on BANKNIFTY is likely to remain uptrend and breakdown of 42200 would negate the short term uptrend.
