Equity Derivatives

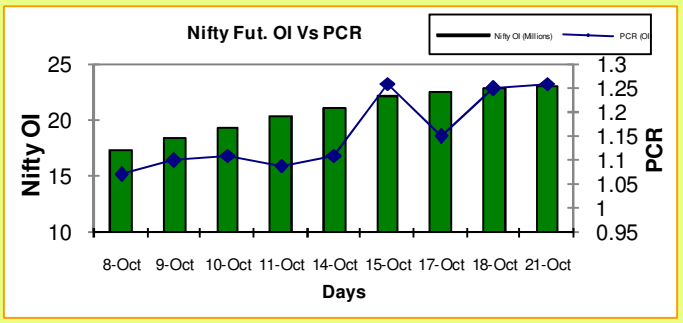

MARKET ROUND UPDATE

Yesterday it was a day of consolidation for Indian markets where indices opened on negative note and thereafter for whole session traded in narrow band of 15-20 points with no clear direction. Selected buying in banking, capital goods, telecom and power helped indices to recover from lower levels and closed on flat note.

- Fresh long buildup was seen in bank nifty fut. whereas short covering was seen in cnxit fut. from lower levels.
- Long positions were added in power, infra, banking and oil&gas sector. Major buying was seen in stocks like adaniport, suntv, dabur, apollotyre, yes bank and ptc.
- Nhpc, punjlloyd, jppower, centurytex, axis bank and jswenergy were some of the stocks that saw short unwinding.
- Selected selling pressure was seen in stocks like exideind, voltas, idea, union bank, bhel and pfc.

Markets are expected to open on flat note and thereafter will continue to trade in narrow band of 6170-6240 levels with positive biasness. Overall, market momentum is strong and any intraday correction towards 6150-6120 should be used as any buying opportunity with short term targets of 6280-6340 levels.
